Lake Central School Corporation has added three new resources in order to improve communication between students, teachers, parents, administrators, and the community.

Below is a short summary of what each system provides for parents and students. If you need information on how to create an account, please contact your school's main office.

❖ **Skyward**: Student Information System that shows student schedules, grades, attendance, and discipline. It is also used for online registration and to pay for school lunches.
  ▪ Primary system that parents will use to monitor student academic performance, attendance, and behavior.
  ▪ All families must have an acount. It can be accessed via the web or the Skyward Family Access app for smart phones.

❖ **Canvas:** Learning Management System that shows what students are learning and doing in class each day.
  ▪ Secondary (Middle Schools and High School)
    • Calendar will show upcoming due dates for assignments, tests, projects, and class events.
    • Should be used by parents to verify studying and homework that needs to be done nightly. It is also where parents and students will go if they are absent to see what they missed.
  ▪ Elementary
    • Calendar will show upcoming class events
    • Used for communication and access to newsletters
  ▪ All students will have an account and parents should create one as well. It can be accessed via the web or the Canvas app for smart phones.

❖ **Pinwheel:** A Scheduling Solution for school sponsored teams, organizations and clubs. Will be used mostly at the middle and high school level if your child participates in extracurriculars.
  ▪ Parents and students will be able to view an up-to-date calendar of practices, meetings, competitions and events.
  ▪ Coaches and sponsors can send out texts and emails to participants and their parents letting them know if a time has changed or event has been cancelled.
  ▪ Community members can join and view when school events are by subscribing to a particular sport or club.
