Dear Lake Central School Corporation Families,

“Playgrounds to Pills: Prevention begins with Parents” will be held on Tuesday, September 19, 2017 at Lake Central High School. A resource fair will begin at 6:00 pm with the presentation beginning at 6:30 pm.

Every day in the United States, 2500 youth (ages 12-17) abuse a prescription pain reliever for the first time. 52 million Americans over the age of 12 have misused prescription drugs at some point in their life, including 1 in 4 teenagers. Yet, we know that teens who consistently learn about the risks of drug use from their parents are up to 50% less likely to use drugs than those who don't get this information from their parents. Attending this upcoming event might be the most important thing you do as a parent this year on behalf of your child.

Please join us in learning more about teaching resiliency and refusal skills at an early age, childhood brain development and its impact on decision making skills and parenting strategies that make a difference in alcohol and drug use risk reduction.
