Playgrounds to Pills  
 Lake Central High School  
 8260 Wicker Avenue  
 St. John, IN 46373  
 6-6:30 PM Resource Fair  
 6:30-8:30 PM Program

Parents have more influence over their children than friends, social media, TV, music and the overly glamorized world of entertainment. Parents have a major impact on their child's decision not to use drugs. Since healthy habits are formed at a young age, it is never too early to lay the foundation for a drug-free lifestyle. Playgrounds to Pills targets a younger population, specifically parents of those in 4th-9th grades. This program places emphasis on pediatric and adolescent brain development, decision-making skills and building resiliency in children. It also focuses on building knowledge of protective factors and risk factors for alcohol and drug use.

**Sponsored By:**

Corporate Sponsorship of  
 Your Choice events provided by:

**STAIRWAY to HEROIN**

Children increasingly are coming into contact with illegal drugs. According to the American Academy of Child and Adolescent Psychiatry, the average age of first time marijuana use is 14. The average age of first time alcohol use is 11 for boys and 13 for girls. By the time they graduate from high school 40% of all teens have used marijuana. We cannot assume that all children who smoke marijuana will become heroin addicts. However, the danger does exist, and research supports the progression of use. Stairway to Heroin creates awareness in a target community by providing local facts and statistics related to illicit drug use, detailing drug trends and types of use, providing a medical perspective on addiction, hearing personal testimonies from families who have experienced the devastation associated with drug abuse and addiction, and learning about hope and recovery.

Please join us for a night of information and inspiration on **October 10<sup>th</sup>**. For more information or to register for this FREE event please visit:

3. Common Sense Media Certified School District

August 2, 2017

Dear Lake Central School Board members and Dr. Veracco,

Digital media and technology are evolving at a dizzying pace, both unlocking extraordinary opportunities and posing real risks for young people. Students are using the immense power of the Internet and mobile technology to explore, connect, create, and learn in ways never before imagined, both in and out of the classroom. But issues that emerge from this 24/7 "connected culture," such as cyberbullying, privacy lapses, and uncertainty about which information to trust online, are surfacing both in schools and at home.

Lake Central School Corporation sees these as teachable moments. We believe that digital citizenship skills have become essential for students in the 21st century, especially in schools like ours that are using technology to transform learning. That's why we are committed to teaching our students how to think critically, behave safely, and participate responsibly. Lake Central School Corporation has just been approved as a Common Sense Certified District: Digital Citizenship, an honor that recognizes our efforts in teaching digital citizenship to young people and engaging the entire community in this important discussion. This recognition is provided by Common Sense Education, part of a national nonprofit organization dedicated to improving the lives of kids and families by providing the trustworthy information, education, and independent voice they need to thrive in a world of media and technology.

Our schools are one of the more than 100,000 schools across the country that use Common Sense Education's groundbreaking education resources. As a result, our students are better equipped to navigate the digital world and use devices for learning.

Special thanks to the district technology trainers who completed the application for this distinction and work diligently with our computer and Digital Citizenship teachers to support students and families.

To learn more about Common Sense Education, visit [www.common sense media.org](http://www.common sense media.org).

Sincerely,

  
Theresa Schoon  
Director of Primary Education

  
Sarah Castaneda  
Director of Secondary Education

- Janice Malchow asked if parents will be informed about this.

E. Director of Special Education – *Becky Gromala*

1. Professional Leave Requests – **Action Required**

Spread the Word  
August 2017

## DEVELOPMENTAL DELAY NON-REGULATORY GUIDANCE

Indiana General Assembly recently passed legislation that permits schools to include children with developmental delay in its nonduplicated count of pupils in programs for mild and moderate disabilities, effective July 1, 2018. The State Board of Education is directed to amend the definition of developmental delay, effective July 1, 2018, to provide that developmental delay is a disability category solely for students who are at least 3 years of age and less than 9 years of age.

Developmental delay means a delay of either two (2) standard deviations below the mean in one (1) of the following developmental areas or one and one-half (1.5) standard deviations below the mean in any two (2) of the following developmental areas:

- (1) Gross or fine motor development.
- (2) Cognitive development.
- (3) Receptive or expressive language development.
- (4) Social or emotional development.
- (5) Self-help or other adaptive development.

The IEP team may determine eligibility in the area of Developmental Delay after careful consideration of all required information. Other disability categories shall be used if they are more descriptive of a young child's strengths and needs.

Additional guidance regarding DD evaluation and eligibility determination of school-age students will be forthcoming.

Spread the Word  
August 2017

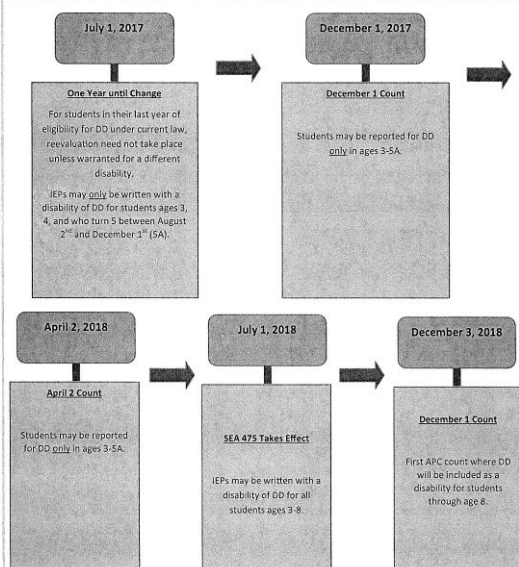

## SCENARIOS

1. The student who is currently identified with DD who will be kindergarten eligible for the 2018/2019 school year:
  - A. The Case Conference Committee and other qualified professionals as appropriate determine if additional assessments are needed.
  - B. If the team determines that the student continues to be eligible for DD and no new assessments are needed (as indicated in the IEP), then no reevaluation is required and the student may continue eligibility after July 1, 2018.
  - C. If the team suspects the student is no longer eligible for DD, and does not suspect another disability category, the team determines what, if any, additional assessments are needed and initiates the reevaluation process.
  - D. If the team suspects a different or additional eligibility area or wants additional information, then the team determines what additional assessments are needed and initiates the reevaluation process.
2. An initial referral for DD for a student not yet kindergarten eligible but who will be eligible for kindergarten at the start of the 2018/2019 school year.  
A CCC can determine DD eligibility using already established procedures prior to July 1, 2018. If determined DD eligible, the student will remain eligible after that date.
3. An initial referral for DD for a school-age student over age five and less than age nine.  
A CCC can initiate an evaluation for DD prior to July 1, 2018 but eligibility for DD cannot be determined until after July 1, 2018. Additional guidelines for school age students will be forthcoming.  
Note: Evaluation timelines still apply.
4. A move-in student during the 2017/2018 school year from a state with a higher DD age.  
If a school-age student moves into a district with DD eligibility prior to July 1, 2018, a reevaluation must be initiated to determine the presence of another area of disability.
