FOR IMMEDIATE RELEASE

### Lake Central School Corporation earns 3 EPA Energy Star Designations

St. John, Indiana – August 29, 2018

Lake Central School Corporation is proud to announce that on August 2, 2018, Lake Central High School was notified that they had earned the United States Environmental Protection Agency's Energy Star Award.

The award was made based upon the commitment to energy efficiencies that have been realized throughout the entire Lake Central High School facility.

This award is in addition to both Protsman and Peifer Elementary Schools who earned Energy Star status earlier this summer.

A decal will be displayed prominently near the main exterior entrances to all three of these buildings.

Architectural firm, Schmidt & Associates as well as construction managers Turner/Powers a joint venture, were instrumental in delivering the state of the art facilities at both Lake Central High School and Protsman Elementary. At Peifer, Schmidt & Associates along with Automated Logic assisted with the recently installed HVAC system. Schmidt & Associations along with Automated Logic Inc. and Arctic Engineering have partnered with LCSC to maximize efficiencies of the mechanical systems at all three buildings.

Lake Central School Corporation would like to thank its key partners in helping to achieve these honors.
